Other Treatment: Questions to Ask the Doctor

You can complete the highlighted fields on this form online and then print the form for easy reference. Only text that is visible on the form is printed; scrolled text will not print. Any text you enter into these fields will be cleared when you close the form; you cannot save it.

Print this form and fill in the information if your doctor recommends a special treatment, such as radiation or physical therapy.

General questions		
What is the name of the treatment?		
Why do I need this treatment?		
What might happen if I delay or avoid this treatment?		
Are there any other treatment options? If so, describe them:		
What is the next step if this treatment doesn't work?		
Does my provincial health plan cover this treatment? How much is covered?		
Are there other costs to the treatment, such as equipment or therapy?		
Questions to ask about the treatment		
What kind of preparation is needed for this treatment?		
Where will the treatment be done (hospital or other location)?		

How successful is this treatment?	How is the treatment done?		
Will the treatment be done only once or will it be repeated? How successful is this treatment? What are the risks associated with this treatment? Who will do the treatment and how much experience does the doctor have in doing this treatment? What effects are expected after the treatment? What complications might develop (both immediate and long-term)?			
Will the treatment be done only once or will it be repeated? How successful is this treatment? What are the risks associated with this treatment? Who will do the treatment and how much experience does the doctor have in doing this treatment? What effects are expected after the treatment? What complications might develop (both immediate and long-term)?			
How successful is this treatment? What are the risks associated with this treatment? Who will do the treatment and how much experience does the doctor have in doing this treatment? What effects are expected after the treatment? What complications might develop (both immediate and long-term)?	Is the treatment painful?

Reminders

- Ask for more information about the treatment.
- · Ask about a second opinion.
- Ask whether the treatment is covered by your provincial health plan or private insurance. If it is not or is only partly covered, ask how much the treatment will cost and if there are ways to reduce the costs.
- State any concerns you have about having the treatment.
